SUMMARY

Data Management professional with hands-on internship experience contributing to data governance initiatives and NDMO standards implementation. Skilled in developing Power BI dashboards, KPI reports, and metadata documentation to improve visibility, support compliance, and enable data-driven decision-making. Passionate about helping organizations maximize the value of their data through effective data management and business intelligence.

EDUCATION

Bachelor of Science in Data Science and Analytics
Princess Nourah bint Abdulrahman University (PNU).

08/2021 – 06/2025 | Riyadh, Saudi Arabia

PROFESSIONAL EXPERIENCE

Data Management Intern - Data Management Office (DMO)
National Water Efficiency and Conservation Center (MAEE)

10/2025 – 02/2026 | Riyadh, Saudi Arabia

- Contributed to establishing and activating the Data Management Office (DMO) through the development of data governance strategies, policies, procedures, and implementation plans across all data management domains.
- Supported National Data Index (NDI) implementation by developing and reviewing documentation, ensuring alignment with national data standards.
- Published more than 10 datasets on the Open Data Platform.
- Documented metadata in the National Data Catalog.
- Classified and documented structured and unstructured data assets in the National Classification Registry.
- Designed and delivered over 40 awareness materials covering data management domains and conducted workshops on Personal Data Protection and Business Data Management.
- Developed an interactive Power BI dashboard to monitor compliance and support governance reporting.

Data Governance Intern - Data Management Office (DMO)
General Authority for Survey and Geospatial Information (GEOSA)

01/2025 – 04/2025 | Riyadh, Saudi Arabia

- Supported the implementation of data governance policies, standards, and procedures across the organization.
- Assisted in ensuring compliance with organizational policies, regulatory standards, and best practices in data management.
- Contributed to promoting a data-driven culture and improving awareness of data governance practices across departments.

PROJECTS

Privacy-Preserving Federated Learning for Alzheimer's Diagnosis – Graduation Project:

Developed an AI-based diagnostic system for Alzheimer's disease using MRI and Clock Drawing Test (CDT) data, achieving 99% MRI accuracy and 94% CDT accuracy. Implemented privacy-preserving federated learning and deployed the solution using Streamlit.

National Data Index (NDI) Progress Dashboard:

Developed a Power BI dashboard to monitor National Data Index (NDI) implementation progress, tracking evidence completion across Data management domains to support governance reporting.

CERTIFICATES

Data Classification Training Program - Saudi Data & AI Authority, SDAIA Academy

Completed hands-on training in applying National Data classification standards using Data classification tools, conducting impact assessments, and implementing data handling controls in accordance with NDMO requirements.

SKILLS

Soft Skills:

- Analytical & Critical Thinking.
- Attention to Detail.
- Cross-functional Collaboration.
- Stakeholder Communication.
- Problem Solving.
- Documentation & Technical Writing.

Hard Skills:

- Data Governance & Management.
- National Data Index (NDI).
- NDMO Standards & Compliance.
- Power BI.
- Microsoft Excel.
- Python.

LANGUAGES

- Arabic.
- English.
